Sir:

RECEIVED
OCT 22 2002
OFFICE OF PETITIONS

PETITION UNDER 37 C.F.R. § 1.10

The subject application was submitted pursuant to the Express Mail Procedure of 37 CFR 1.10. The application was deposited with the United States Postal Service (USPS) in an Express Mail envelope with sufficient postage for Express Mailing on November 12, 2001 pursuant to 37 CFR 1.10, but the returned postcard and official filing receipt (copies enclosed) indicate that the United States Patent and Trademark Office (USPTO) considered the filing date to be November 13, 2001.

Enclosed is a copy of the new application transmittal letter from our files. The new application transmittal letter contains a Certification of Express Mailing Date under 37 CFR 1.10 and proper reference to Express Mail Label Number EL896635132US as required by Section 1.10. This information is also contained in the files of the United States Patent and Trademark Office.

Cheryl Liang, the person mailing the papers pursuant to 37 CFR 1.10, has signed a verified statement that the new application was deposited with the USPS in an Express Mail envelope with sufficient postage for Express Mailing on November 12, 2001. The signed verified statement signed by Cheryl Liang is attached.

Also enclosed is a letter from Michael C. Coleman, a manager of the USPS, indicating that November 12, 2001 is the correct "sign in" date. Attached to the letter are copies of the Express Mail Label Number EL896635132US returned from the USPS and PS Form 5541. It should be noted that the "sign in" clerk at the USPS inadvertently indicated the "date in" to be November 13, 2001, instead of November 12, 2001. However, it is apparent from the enclosed letter from USPS manager Michael C. Coleman and the enclosed PS Form 5541 that November 12, 2001 is the correct "sign in" date.

The Applicants have complied with the requirements of 37 CFR 1.10 and is entitled to a filing date of November 12, 2001. Therefore, please update all of the records in the USPTO to indicate that the filing date of the above-identified application is November 12, 2001; and please advise us in writing that the USPTO considers

November 12, 2001

to be the filing date of the above-identified U.S. application.

Please note that this correction was previously requested in a letter to the Assistant Commissioner for Patents by the Applicants on April 24, 2002; however, a Response from the USPTO was received indicating that the request should be addressed to the Office of Petitions.

This correction is not due to any error by the Applicants;
therefore, no official fee should be due. The Commissioner is
authorized to charge any additional fees which may be required or
credit overpayment to deposit account no. 12-0415.

To Whom It May Concern:

On November 12, 2001, we the U.S. Postal Service picked up Express Mail Item # EL896635132US from our customer, Ladas & Perry. Regrettably, we mishandled this item and it entered our mailstream on November 13, 2001 a complete day later. Clearly the U.S. Postal Service is responsible for this unfortunate incident, not the sender.

Please accept this letter and copy of the Pickup Service Statement, PS Form 5541, as irrefutable documentation that our customer mailed this item on November 12, 2001.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael C. Coleman", with a long horizontal flourish extending to the right.

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
